Own Canoe," would be sold at anction last evening at the Fitth-ave. Art Gallery, drew to that place a large assemblage of ladies and gentlemen.

John Draper, the well-known auctioneer, appeared on the occasion, and offered first, "The Old Oaken Bucket;" i,000 was the first bid, which was followed in quick succession by \$250 bids until \$2,500 was reached. At this figure the bidding stopped for some time; but at the third call of the auctioneer another \$250 bid was made, which seemed to stir up the other would-be purchasers, and the paintings was rapidly run up to \$4,000, at which price it was knocked down to Mr. A. C. Hodges of this city. "Home, Sweet Home," was next offered, and received a bid of \$1,000 as a start. The bidding at this point became very slow, and for some time it seemed as if the picture would go on the first bid; but Mr. Hodges came to the resoule, and, after some spirited bidding, won the painting at \$2,500.

\$2,500.

The "Captive Child" started with a \$1,500 bid, which so frightened the other bidders that an additional \$250 was all that Mr. Draper could coax out of them. Mr. Stanford was the purchaser at \$1,750.

The last of the collection, "Paddle Your Own Canoe," received but one bld (\$1,000), for which sum it was knocked down to Mr. James R. Smith.

Yesterday afternoon the match at pigeon shooting between James Ward of Toronto, the recognized champion shot of Canada, and Ira Payne of this city champion shot of Canada, and Ira Payne of this city came off on the Seacaucus race-course. New Jersey. It was for \$1,000, each party shooting at 100 birds, 50 from a ground trap, and 50 from a plunge trap, the latter being moved by a spring which throws the confined bird up into the air. The distance of the shooter from the trap was 21 yards, and the boundary 80 yards. From the ground trap Payne killed 44 out of 50 birds, missing 6: Ward killed 28, missing 12. From the spring frap Payne's markmanship was magnificent, killing 39 birds in succession, missing the 60th, and killing the remaining 10, although the match was won on the 22d bird, at which singe of the shooting Ward resigned the contest, finding 1 timpossible either to win or the. Ward killed 35 out of 40 birds from the spring trap, making his total score 73 out of 90 birds shot at. Edward Tinker of Providence, R. I., is willing to make a match, staking \$100 against out of 90 birds 800t at. Edward That I at 100 against R. I., is willing to make a match, staking \$100 against \$1,000 that he can kill 50 birds consecutively from a spring trap. 21 yards rise and 80 yards boundary, he to find and trap his own birds. This is a bold challenge, and will doubtless meet with ready acceptance.

No Confirmation Needed .- While everybody is Egiting for office, Knox tarries at No. 212 Broadway, beautifying the human form divine with his exquisite Spring style hat. As such be has been looked upon for years, and his title needs now no fresh confirmation

THE ESPENSCHEID HAT.—One of the leading ments of Expenscheid's Spring style for 1869 is the absence of all exaggration is its conformation. The conical shape is just sufficiently perceptible without being a too prominent feature, and all the details seem to assimilate with each other in perfect symmetry. This dress hat of the season is a model work of art. His salegroom is at No. 118 Nasanst, between Ann and Beekmansts.
